

Wilo Helix

Vertical Multistage Pumps

*Product Brochure*

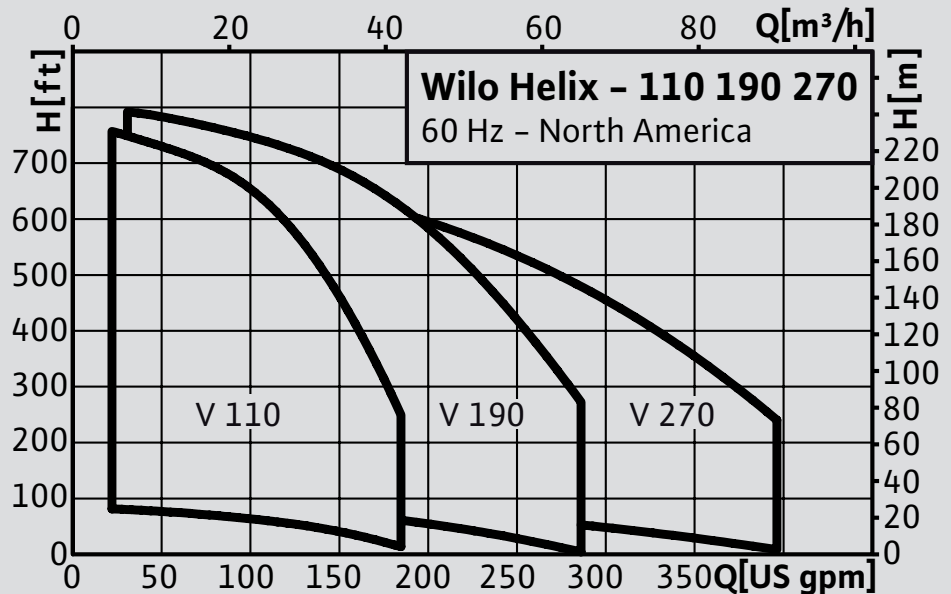

# Wilo Helix

## Vertical Multistage Pumps

Applications Include:

- » Water supply & pressure boosting
- » Condensate return
- » Boiler feed
- » Washing and sprinkling systems
- » Process engineering
- » Cooling circuits

Wilo Helix

### 33% More Head, 10% More Flow Per Stage!

- » Patent-pending 3D laser welded impeller design boosts performance
- » Rebuildable cartridge seal system reduces maintenance time by up to 70%
- » Floating flanges for easy installation
- » Spacer coupling standard on models 7½ HP and above
- » Built-in suction and discharge pressure gauge tapings
- » Integrated thrust bearing reduces motor stress
- » Lifting lugs built into pump housing
- » Sizes available up to 50 HP
- » Heads up to 800 feet
- » Flows up to 380 USGPM
- » Standard TEFC motors (EISA compliant)
- » Corrosion-free baseplate is interchangeable with many competitor models
- » Fluid temperature range from -4°F to 248°F (-20°C to 120°C)

**Slash Maintenance  
Time Up To 70%!**

\*Compared to seal replacement time of pump without cartridge seal system.
